APPOINTMENT REMINDER

Avoid the cost and frustration of no-shows as you reaffirm the value of your organization's schedule with automated reminder calls. Minimize lost revenue, delays, and customer dissatisfaction by ensuring your valued customers don't forget their next appointment. Don't divert the attention of a valuable staff member to call your customers – Appointment Reminder can do it for you.

If your business is driven by client appointments, you'll appreciate the value of protecting the integrity of your schedule. No-shows and late cancellations are often the result of forgetfulness and can reduce your income and create chaos in your schedule. Avoid the no-shows and use the opportunity to reaffirm the value of the appointment by automating reminder calls with Appointment Reminder. Appointment Reminder is built on the ProConnect platform, which means you can get started quickly by uploading a spreadsheet of upcoming customer appointments. Because it's a cloud-based platform, there's no significant capital investment and no coding or technical skills required.

Send Friendly Reminders and Protect Your Schedule

- Keep your staff focused on higher-value activities
- Upload your schedule spreadsheet to initiate the calls
- Access a suite of reports detailing call attempts, options selected, and outcomes
